Total weight:	8,46	100,00%	Recycled material used in kgs	2,76

The total weight is 8,46 kg (COM, without upholstery fabric/leather).

Model S 64 PV consists to 32,62% of recycled material and is recyclable up to 99,41%.

We have FSC or PEFC certificates on hand for each veneer, solid wood and wooden moulding used by us.

The calculations of the recycling part is based on data which have been placed at the disposal by distributors and on other information available. This data can be industry averages, ranges or other information public available. Therefore, due to variations of the market situations or changes in the production process, slightly changed values are possible. We check and update this documentation in regular intervals and adjust it, if necessary. Subject to alterations.
